Spring 2023

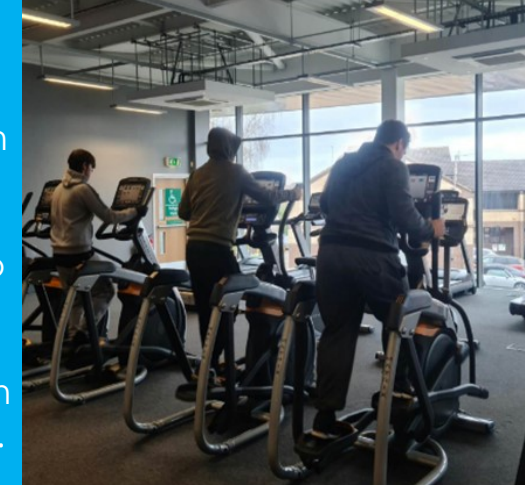

OUR TERM

We have really been focusing on getting the best out of our students this term. We've had many successfully pass their First Aid course, several have undertaken and passed their Health & Safety Level qualification, and a lot of work has been done towards portfolio option subjects. These are from a range of subjects such as Childcare, Art & Design, Administration and Construction.

SCHOOL TRIPS

We've had an eventful term with optional trips to the ballet, the National Apprenticeship Show, MK College, and even a day trip to Edinburgh! We've continued to attend job recruitment fairs in MK and all students now have an up to date CV for summer hiring.

ENRICHMENT

Students have been showcasing their construction projects, and continue to work with our contracted mechanic weekly on car maintenance. We are now exploring enrichment to focus on exam prep as we enter the countdown to the exam summer series.

ACHIEVEMENTS

The majority of students have now completed a Level 1 in Enterprise and are well on their way to completing a Level 2 qualification in Work Skills. Many students now have 3-5 additional qualifications achieved this year to date, with the summer term still to come.

Summer Term begins Tuesday 18th April 2023 8:30am

Post 16

Spring Term Update

It has been a really rewarding term to see our students begin to accumulate finished courses and start their summer exam preparation. Seeing their successes and how they are enjoying their learning is a massive step forward in building confidence and preparing students for their next steps beyond Post 16.

Our Year 13 applications are open to apply online and will close on March 31st. This term we have been busy helping students prepare for college interviews, apply for summer jobs and realise that this year is only the beginning of a great future. We wish all our students a safe and restful Easter holiday, and look forward to welcoming them back for the summer term.

Christine Dehnel
Assistant Principal for the Post 16 Centre

Our School

We have seen great commitment from many students this term in completing qualifications and improving their CV's ready to apply to colleges, work and make plans for their next steps. The Post 16 Centre has been linking up with many local agencies to explore work experience placements, ensure all students have an interview outfit and have practiced mock interviews as part of their work skills qualification.

Many of our students continue to work towards their Level 2 in Home Cooking each week in their catering lessons (some of their dishes are shown above+87). It was our absolute pleasure to facilitate the cultural trip to Edinburgh this term where we had three students in the group who had never been on plane before.

Next term we will be organising individual exam calendars and preparing for the final summer exams. We look forward to seeing you at our graduation/leavers afternoon on Friday June 16th to celebrate all of our students' achievements.
